The book 'Walter Rodney His Last Days And Campaigns' by Eusi Kwayana, has just been published to commemorate the 30 Anniversary of Walter's murder, which was 13 June, last Sunday. The book is a comprehensive record of Walter's last days in Guyana and his positive action in helping to bring about a far more healthy society for all Guyanese.

The book contains rare important photographs of the times some not very well known at all. The one on the Front Cover was specially chosen as it shows just how happy Walter was to be back home grounding with his Guyanese brothers and sisters, although he had no job!
